Previous career as a Filter Technician at Ballast Point Brewing Company revealed a passion for mechanical processes, problem solving, and creating quality products through collaborative teamwork. Grew front (HTML, CSS, JavaScript, React.js) and back-end (Node.js, MySQL, Mongo) coding skills from the ground up and is now helping team members to see the big picture of projects, develop our skills to the next level, and cultivate a positive work environment. Fell in love with the complexity and specificity of programming and is excited to see new technology emerge while meeting passionate people along the way.

## Technical Expertise:

• JavaScript • HTML • CSS • SASS • Node.js • Express • React • Handlebars • jQuery • Git/GitHub • Firebase • Responsive Design • MySQL • Sequelize • Mongo • Mongoose • JSON • Next.js • Foundation • Bootstrap • Stripe • React-Redux

## Education:

### University of California San Diego Extension

San Diego, CA, March - May 2018

Full Time Coding Bootcamp

### University of California San Diego

San Diego, CA 2011-2014

BS: Physiology/Neuroscience

## Projects:

SDBEER - [sdbeer.com](https://sdbeer.com)

**Tech Stack:** MERN with Foundation

**APIs:** Node-mailer, Google Maps

**My Role:** Added pages/features to backend CMS and update front end React website

**Description:** Use interactive map to find breweries, view list of updated events hosted by local breweries, and learn about the San Diego Brewers Guild

Whistlr - [whistlr.herokuapp.com/](https://whistlr.herokuapp.com/)

**Tech Stack:** MERN with React-bootstrap

**Technology:** Socket.io and Passport/JWT

**My Role:** Full Stack Development for Login/Signup and Profile pages

**Description:** Forum for users to anonymously alert the public of any issues inhibiting the peaceful, progressive coexistence of any groups of people or individuals.

## Experience:

### UCSD Extension Coding Bootcamp

San Diego, CA July 2018 – Present

**Title:** Teaching Assistant

**Description:** Help students debug code, assist students in learning the developer mindset, grade students' assignments, and support the instructor during class.

### Paradeigm

San Diego, CA August 2018 - October 2018

**Title:** Full Stack Developer

**Description:** Update, edit, and add features to web/mobile applications. Work with project managers to plan and collaborate with clients.
