Full Stack Web Developer currently looking for employment. Previous career as a Filter Technician at Ballast Point Brewing Company revealed a passion for mechanical processes, problem solving, and creating quality products through collaborative teamwork.

Grew front (HTML, CSS, JavaScript, React.js) and back-end (Node.js, MySQL, Mongo) coding skills from the ground up and am now helping team members to see the big picture of projects, develop our skills to the next level, and cultivate a positive work environment. Fell in love with the complexity and specificity of programming and am excited to see new technology emerge while meeting passionate people along the way.
